

HIGH POLARIZED TAIL TAG

Protect any hard back book, paperback or magazine, regardless of shape or size, with the High Polarized Tail tag.

What makes this EM security tag unique is its slim profile. It is the most discreet magnetized security tag available and is hardly visible when used to protect items such as books

There are eight different versions of the High Polarized Tail tag for you to choose from:

Re-and De-activatable	Permanent
HP-DSA (re/de) tail tag 125 mm	HP-DSA (perm) tail tag 125 mm
HP-DSA (re/de) tail tag 165 mm	HP-DSA (perm) tail tag 165 mm
HP-SSA (re/de) tail tag 125 mm	HP-SSA (perm) tail tag 125 mm
HP-SSA (re/de) tail tag 165 mm	HP-SSA (perm) tail tag 165 mm

CD/DVD PROTECTION LABELS

Compact discs (CDs and CD-ROMs) and DVDs can be protected by applying a CD label which incorporates an integrated security strip directly to the disc.

The CD/DVD protection labels are available for both circulating and non-circulating items.

ELECTRO MAGNETIC SECURITY TAGS

90mm EM security tags are compatible with all electro magnetic EAS systems. Ideal for protecting video and audio cassettes, they are overprinted with a “dummy” barcode and are suitable for both circulating and non-circulating purposes.
