

# DELTATAG+MIDI DELTATAG

↘ **The quality** of an RF hard tag is an integral part of a system performance, reliability and success.

↘ **The Delta and Midi Delta tags** are manufactured using the highest quality, durable and lightweight ABS. An ultra smooth surface and angular design makes forced removal virtually impossible. The specially designed weight distribution within the tag enables it to hang uniformly on fashion items, whilst the ABS surface is dirt and grime resistant maintaining a 'new' appearance for the life of the tag.

↘ **The advanced** locking mechanism guarantees effortless pin insertion and lock releasing even after long periods of frequent use.

The standard Delta and Midi Delta tag are easy to apply and quickly released using one of our detacher options. If added security is required, the Delta/S and Midi Delta/S tags are the ultimate solution: incorporating a powerful superlock, impossible to remove except with our exclusive MCD/S detacher.

↘ **Delta and Midi Delta tags** incorporate a three-dimensional detection coil, creating superb, unrivalled detection through any orientation.

## DIMENSIONS

SPECIFICATIONS	DELTA TAG	DELTA-S TAG	MIDI DELTA TAG	MIDI DELTA-S TAG
<b>Frequencies</b>	8.2 MHz 4.75 MHz 3.25 MHz 2.25 MHz (for SX system)	8.2 MHz 4.75 MHz 3.25 MHz 2.25 MHz (for SX system)	8.2 MHz 4.75 MHz	8.2 MHz 4.75 MHz
<b>Colour</b>	White*	Cream*	White*	White*
<b>Tractive power of the lock</b>	65kg	65kg	65kg	65kg
