

# DC TUBE

## RF DETECTION SYSTEMS

The DC Tube is a flexible basic system for any store environment. The antenna is designed from powder coated steel and durable Forex to produce a robust, but sleek and modern antenna design.

This generation of RF electronics is virtually false alarm free.

The DC feature software makes management information available with remote maintenance via a USB/Ethernet tool.

### Specifications:

#### Detection:

- 1.60 - 2.00 meters for hard tags
- 1.40 - 1.60 meters for 5 x 5 sticker tags
- 1.20 - 1.40 meters for 4 x 4 sticker tags

### Hardware accessories:

- USB to Can bridge (Standard USB and Ethernet cable included for configuration on a PC or laptop).
- USB / Ethernet to Can bridge (Standard USB and Ethernet cable included, to configure on a PC, laptop, via internet or internal network).
- People counter
- CSU/DC
- Removable antenna base

### RF software features consist of:

- Slaving option
- Buzzer time
- Buzzer tune
- Relay output
- Lamp time
- Lamp intensity
- Lamp frequency
- Alarm counters readable via network
- People counters readable via network
- Restart counter readable via network
- Log file readable via network Antenna

### Dimensions:

Antenna: 345 x 37 x 1622 mm (W x D x H)

Base: 355 x 100 x 12 mm (W x D x H)

Weight: 8.20kg

# INTREPIDSECURITY

Intrepid Security supplies and maintains a unique portfolio of systems to prevent stock loss and protect profits, supporting a healthy, profitable, business. With over 30 years experience in retail, library and distribution companies of all sizes and in all market sectors, we have a unique insight and understand that loss reduction cannot be sold as a one size fits all solution.

Our independence enables us to offer impartial advice, based on your company's specific needs and to work with each business to provide a viable solution that works. We supply companies large and small including many of the high streets' best known stores as well as the world's most famous department store.

We are constantly sourcing, researching and trialling new systems from the industry's most innovative developers and designers, in addition to our own in-house R & D, to ensure that we can offer you the best loss prevention solutions, including:

- **EAS:** tagging from the world's leading manufacturers across all technologies. We also supply tags, labels and alarms for any manufacturer systems.
- **CCTV:** The Highest definition cameras with mobile apps for dial in capabilities enabling you to see your business 24/7, from anywhere in the world.
- **SmartTrack Camera:** 360° Vision with the world's only Automated Twin Camera carriage track CCTV system. Ingeniously concealed, this travelling motorised system utilizes pan, tilt and zoom track cameras that glide undetected along a track. Silent, swift and precise
- **Access Control:** Software integrated, stand alone and unique RFID solutions.

**Our focus is and has always been on quality, independent technical advice and customer support.**

**INTREPID SECURITY**  
We are constantly sourcing, researching and trialling new systems to ensure that we can offer you the best loss prevention solutions.
