- Fitting room
- Product recommendation
- Social media
- Magic mirror

THE BIG PAYOFF OF RFID

Empower your business and elevate shopping into a rich and positive customer experience. By using RFID as part of your total retailing solution, you can offer so much more: greet your customer by name, offer a wider selection of merchandise, offer better customer service with faster assistance, improved product knowledge, information and offer personalised promotions. Evolve from shopping time to social time, with intuitive interactive in-store screens and tablets, enabling your customers to share the experience with friends and family. RFID can identify merchandise, recognise customers, and facilitate mobile transactions. Gain real time visibility into inventory and expedite sales, stock replenishments and deliveries.

INTREPIDSECURITY

Intrepid Security supplies and maintains a unique portfolio of systems to prevent stock loss and protect profits, supporting a healthy, profitable, business. With over 30 years experience in retail, library and distribution companies of all sizes and in all market sectors, we have a unique insight and understand that loss reduction cannot be sold as a one size fits all solution.

Our independence enables us to offer impartial advice, based on your company's specific needs and to work with each business to provide a viable solution that works. We supply companies large and small including many of the high streets' best known stores as well as the world's most famous department store.

We are constantly sourcing, researching and trialling new systems from the industry's most innovative developers and designers, in addition to our own in-house R & D, to ensure that we can offer you the best loss prevention solutions, including:

- **EAS:** tagging from the world's leading manufacturers across all technologies. We also supply tags, labels and alarms for any manufacturer systems.
- **CCTV:** The Highest definition cameras with mobile apps for dial in capabilities enabling you to see your business 24/7, from anywhere in the world.
- **SmartTrack Camera:** 360° Vision with the world's only Automated Twin Camera carriage track CCTV system. Ingeniously concealed, this travelling motorised system utilizes pan, tilt and zoom track cameras that glide undetected along a track. Silent, swift and precise
- **Access Control:** Software integrated, stand alone and unique RFID solutions.

Our focus is and has always been on quality, independent technical advice and customer support.
