

REMBRANDT XP STORE

RF DETECTION SYSTEMS

The Rembrandt XP Store antenna is the flexible solution for the retailer who requires a basic design with reliable, false alarm free performance. The combination of anodized aluminium frame and Forex materials ensures a durable modern antenna design.

The antenna can be upgraded with transparent panels which give the antenna a premium look and will prevent children from climbing onto the system. These panels can be printed for advertising or branding. A bidirectional people counter can be incorporated in the Rembrandt XP Basic antenna; this counter is direction sensitive and users can choose which count direction is displayed. Remote maintenance is possible via a USB/Ethernet tool

Specifications:

Performance:

Omni directional detection

- Up to 2.00 meters for hard tags
- Up to 1.80 meters for sticker tags

Hardware accessories:

- USB to Can bridge
- USB / Ethernet to Can bridge
- Bidirectional people counter with resettable display,

Weight: 6.45 kg

Material:

Anodized aluminium mounting frame

Optional:

Printed transparent panels for advertising.

INTREPIDSECURITY

Intrepid Security supplies and maintains a unique portfolio of systems to prevent stock loss and protect profits, supporting a healthy, profitable, business. With over 30 years experience in retail, library and distribution companies of all sizes and in all market sectors, we have a unique insight and understand that loss reduction cannot be sold as a one size fits all solution.

Our independence enables us to offer impartial advice, based on your company's specific needs and to work with each business to provide a viable solution that works. We supply companies large and small including many of the high streets' best known stores as well as the world's most famous department store.

We are constantly sourcing, researching and trialling new systems from the industry's most innovative developers and designers, in addition to our own in-house R & D, to ensure that we can offer you the best loss prevention solutions, including:

- **EAS:** tagging from the world's leading manufacturers across all technologies. We also supply tags, labels and alarms for any manufacturer systems.
- **CCTV:** The Highest definition cameras with mobile apps for dial in capabilities enabling you to see your business 24/7, from anywhere in the world.
- **SmartTrack Camera:** 360° Vision with the world's only Automated Twin Camera carriage track CCTV system. Ingeniously concealed, this travelling motorised system utilizes pan, tilt and zoom track cameras that glide undetected along a track. Silent, swift and precise
- **Access Control:** Software integrated, stand alone and unique RFID solutions.

Our focus is and has always been on quality, independent technical advice and customer support.
