

# KEEP COUNTING

## BATTERY OPERATED DOWNLOAD DATA BY USB STICK OR CABLE

This wireless people counter set works by detecting an interruption in the infrared beam being transmitted across from the transmitter to the receiver. When the beam is interrupted, the receiver detects this and increases the internal counter. The counter set is direction sensitive, which means that counts are stored in separate directions.

This versatile battery powered counter sensor, can be used where no network is available and detailed valuable data is needed.

### Product Features:

- Easy installation
- Extreme low power
- Standard wide opening capability up to 10m / 33ft
- ENI@ : Enhanced Noise Immunity (DSP Technology)
- Secure download of data to USB memory stick
- Storage for over a month of minutely data
- Internal time / date
- CSV file format for Microsoft Excel® or SensorServe

Simple to install, the counter sensors also filter out infrared and any electrical disturbance from, for instance door openers or an EAS tagging system. It can also be fixed to any EAS or tagging system and will count through glass. Download data onto a USB stick or via a standard USB cable.

### Specifications:

#### Bi-Directional People Counter

##### Mechanical

- Dimensions 116 x 68.6 x 22.3
- Material Black ABS

##### Electrical

- Power supply 2 x 1.5V AA
- Wireless Range 30m/100 feet ( unobstructed)
- Power consumption Approximately 120 uA
- Battery Life up to 4 years
- Maximum counting distance up to 8m/26 feet (unobstructed)

# IntrepidLibrary

Intrepid Library supplies and maintains a unique portfolio of systems to protect all types of library media. With over 30 years experience in library and museums and public buildings of all sizes we have a unique insight and understand that there is no one size fits all solution.

Our independence enables us to offer impartial advice, based on your specific needs and to work with each client to provide a viable solution that works.

We are constantly sourcing, researching and trialling new systems from the industry's most innovative developers and designers, in addition to our own in-house R & D, to ensure that we can offer you the best loss prevention solutions, including:

- **EAS:** tagging from the world's leading manufacturers across all technologies. We also supply, labels and alarms for any manufacturer systems.
- **CCTV:** The Highest definition cameras with mobile apps for dial in capabilities enabling you to see your business 24/7, from anywhere in the world.
- **People Counting:** All types of people counters, from simple battery operated to IT integrated software, which can be fully customised for your own requirements. Remote access and real time reporting.
- **Access Control:** Software integrated, stand alone and unique RFID solutions.
- **Digital Team Communication:** Reliable team communication for up to 30 users. No battery packs or cables, just smart lightweight headsets that let you communicate over an area of up to 200,000 sqft.

**Our focus is and has always been on quality, independent technical advice and customer support.**

## INTREPID LIBRARY

We are constantly sourcing, researching and trialling new systems to ensure that we can offer you the best security for your library.
