

BLADE

AM DETECTION SYSTEM

The new BLADE system has been created with a slim and modern design. It discretely fits onto door frames and walls.

It is manufactured with top quality acrylic materials and will fit seamlessly into any boutique.

The system is designed to sit above the floor, which allows correct operation even if the floor is wet: snow, rain, etc.

The system includes several advanced features:

- Slaving option
- Jammer alarm, to detect even the most professional thieves.
- Near tag alarm, to detect tagged items inconveniently placed too close to the system.
- Green mode to save energy out of working hours.

Easily upgrade the system with:

- Slaving option
- Double beam (IN/OUT) people counter, to follow the evolution of traffic, alarms, etc.
- Foil bag detection, to discretely detect professional shoplifter carrying metal lined bags.
- Detacher detection to disable attempts to take detacher into your shop.
- Internet access, to reduce service costs.
- Silent alarm through pagers to discretely communicate alarms to security staff.

Technical specifications:

INTREPIDSECURITY

Intrepid Security supplies and maintains a unique portfolio of systems to prevent stock loss and protect profits, supporting a healthy, profitable, business. With over 30 years experience in retail, library and distribution companies of all sizes and in all market sectors, we have a unique insight and understand that loss reduction cannot be sold as a one size fits all solution.

Our independence enables us to offer impartial advice, based on your company's specific needs and to work with each business to provide a viable solution that works. We supply companies large and small including many of the high streets' best known stores as well as the world's most famous department store.

We are constantly sourcing, researching and trialling new systems from the industry's most innovative developers and designers, in addition to our own in-house R & D, to ensure that we can offer you the best loss prevention solutions, including:

- **EAS:** tagging from the world's leading manufacturers across all technologies. We also supply tags, labels and alarms for any manufacturer systems.
- **CCTV:** The Highest definition cameras with mobile apps for dial in capabilities enabling you to see your business 24/7, from anywhere in the world.
- **SmartTrack Camera:** 360° Vision with the world's only Automated Twin Camera carriage track CCTV system. Ingeniously concealed, this travelling motorised system utilizes pan, tilt and zoom track cameras that glide undetected along a track. Silent, swift and precise
- **Access Control:** Software integrated, stand alone and unique RFID solutions.

Our focus is and has always been on quality, independent technical advice and customer support.
